

HONORS CAROLINA AND
PHI BETA KAPPA PRESENT

STRUCTURES OF INEQUALITY MOVING FORWARD

In the fall, Honors Carolina kicked off an ongoing examination of Systems of Inequality with a series of programs on structural racism. This semester, we will turn our attention to related questions of bias and discrimination. Topics will range from equity in the media to the rural-urban divide, college access, and mental health.

We invite all members of the UNC community to join us for six topical discussions with faculty and professional experts, each paired with an hour of action. Register online at <https://bit.ly/structuresofinequality>. Keep an eye out as more lectures are added this semester!

This series is sponsored by Honors Carolina and the Phi Beta Kappa Society and is open to everyone. We look forward to welcoming you to the conversation and learning from your participation.
